## \$4,000 SUIT

Filed Against Jesse Calvert of This City by Lawrence L. Williams of the County for Alienation of His Wife's Affections.

In the Mason Circuit Court yesterday Lawrence L. Williams of the county filed suit against Jesse Calvert of this city through his attorney M. J. Hennessey for alienation of his wife's affections. He asks for \$4,000 and costs and all proper relief.

The petition states that Calvert had been a visitor at the plaintiff's home quite a number of times while he was present and also during his absence. He claims that the trips were made for the purpose of misrepresenting him to his wife and had induced her to mistreat and abandon him and to finally secure a divorce. The divorce was secured in the Mason County Circuit Court. His wife now resides in the county.

Mr. Calvert is one of the most popular men in this county and has always been very prominent in every move for the good of the community. For a number of years he was a member of the Board of Education of the Public Schools of this city. He does a great deal of stocktrading and counts his friends by the score.

The case will no doubt attract a great deal of attention all over the county by the many friends of both parties.

## HOT THERE, TOO

The Ledger is in receipt of a card from Mr. J. Barbour Russell, who is with his wife at Battle Creek, Mich., saying that it is extremely hot there but that an auto ride in a friend's machine every night relieves things somewhat.

Misses Ruth Chalkley of Chalkley Station, and Anita Newdigate of Mayville, were the pleasant guests of Miss Emma McCrone last Friday.—Vanceburg Sen.

Miss Florence Barbour who was taken seriously ill on Tuesday night is convalescent and her early recovery is confidently expected.

## TOMORROW IS SPECIAL REGISTRATION DAY HERE

Tomorrow (Saturday) will be special registration day for Mason County and all preparations have been made by County Clerk J. J. Owens to register promptly all who make application for certificates.

Those eligible to obtain special certificates tomorrow are all those who have become of age since the last regular election or who will become of age before the next election, all who have moved from one precinct to another, or who, on account of illness, absence from the city or other cause, failed to register last fall.

## NEW PLANS

The contractors, Vastine, Noland & Lowrey, have again changed their plans concerning the laying of the brick streets in the East End. They will finish the street to Poplar street now to allow Cary Reed Co. to use the street car turn out. As soon as the switch has been connected and allowed to set long enough the street car turn out will be moved to the Sixth Ward to allow the contractors there to do some concreting. We hope that they will carry out this plan, but it seems that all of their plans have been going wrong or have had to be changed.

## MANY WILL GO TO RUGGLES

Many from this city are making preparations to spend a few days at Ruggles Campmeeting which will begin next Thursday. This year promises to be one of the biggest the Campmeeting has ever had.

## MANY FOREIGNERS PASS THRU

A car of foreigners passed through here yesterday morning on the C. & O. en route to points west. There were over a hundred in the car. They seemed to be mostly Greeks.

Harry E. Ennis of Lexington street is visiting his uncle, Mr. H. E. Schatzmann of Bellevue, Ky.

Mrs. Lillie Kelley of Mt. Carmel spent the day in this city yesterday.

## MATHEWSON

Is Traded to Cincinnati at Last—Big Deal Agreed on After Conference Lasting Two Hours.

Cincinnati, Ohio, July 20.—President Herrmann announced today that he had agreed with President Harry Hempstead and Manager McGraw, of the New York Nationals, to trade Charles Herzog, manager of the Reds, and Outfielder Wade Kilgore to the Giants for Christy Mathewson, Outfielder Roush and Infielder McKee.

Herzog's contract with the Reds stipulated that any deal affecting him must have his consent.

It was not expected that there would be the slightest hitch, as it was known that Herzog preferred going to New York above all other cities. It is believed that several days ago, when McGraw and Herzog conferred, the question of salary and contract was decided upon. It is possible that there may be consideration of a bonus to Herzog, but this is doubtful.

The big deal was agreed upon after Herrmann, Hempstead and McGraw had conferred for more than two hours.

Herzog has been manager of the Reds since the season of 1914. He probably will play third base for the Giants, his old position on that team.

After a short conference with Herzog McGraw stated that Herzog had agreed to go to New York, and that the deal with the Cincinnati club was closed.

The trade as made is said to be the original proposition made by New York, with the important exception that the clause which would have permitted the New York management to recall Mathewson after two years has been eliminated. It was said Mathewson becomes the property of the Cincinnati club outright, without any stipulation.

## "Big Six" Is Willing

Chicago, July 20.—Christy Mathewson, famous pitcher of the Giants, when informed today that the Herzog trade gone through at Cincinnati, said he understood he was to be manager of the Reds, but that he had not talked it over with President Herrmann. The New York players involved in the trade had not been officially notified of the transfer early this afternoon and none knew when he was to report.

Members of the team expressed great regret at seeing Mathewson leave them after his long service with the Giants. They were optimistic, however, about their own chances of finishing high in the race with Herzog at shortstop.

## Nick Carter Goes to Reds

Cincinnati, Ohio, July 20.—The Reds will buy Pitcher Nick Carter from Indianapolis, of the American Association. He has won thirteen and lost two games this season.

## FIRST VISIT IN 31 YEARS

Mr. Andrew C. Mitchell of Bessemer, Ala., was in this city Wednesday and Thursday making a visit to his birthplace after a 31 years absence. Mr. Mitchell said that it was like being raised from the dead to come back and see the many changes in his old home. During his brief stay in the city Mr. Mitchell met only three of his former companions. He spoke highly of Mayville's progress.

## STORM WARNING ON ATLANTIC DISPLAYED

Washington, July 20.—Storm warnings still were displayed tonight along the Atlantic coast, while the storm which has been traveling up from the West Indies was centered apparently some distance off the Virginia coast and continuing northward. Gales were forecast for Friday off the North and Middle Atlantic coast.

## BREAKS ARM

While coming down the stairs at her cottage at Ruggles Campgrounds Monday, Mrs. C. W. Harding fell and broke her arm between the shoulder and elbow. This was the first accident of the season at that great camping place.

## DANDY RAIN

The rain which visited here yesterday afternoon was a great help to the gardens of the various residents of the city. The rain has been needed here for some time and came when needed the most.

## ANTI-SALOON MAN HERE

Dr. N. A. Palmer of Louisville, State Superintendent of the Kentucky Anti-Saloon League was in this city yesterday and addressed the prayer meeting at the Third Street M. E. Church last night.

## TRIAL POSTPONED UNTIL SATURDAY

The trial of George Cummins, charged with larceny, was held over until Saturday afternoon in Police Court yesterday afternoon. Cummins said that he would plead guilty to the charge of larceny but would not plead guilty to the charge of car breaking. Cummins is the man who was caught by the local officers several nights ago. When caught he had just had his toe cut off by a freight train. The first charge preferred against him was bootlegging but on searching his rooms they found a great quantity of merchandise. They later placed a charge of larceny and car breaking against him.

## EMMER BREAKS IN

Shortstop Emmer, who was with the Burley Cubs last year, and who was sold to Cincinnati at the end of the season, broke into both games of the double header between Cincinnati and Philadelphia yesterday. He showed up well making a hit and doing some classy fielding. He will probably be a permanent fixture with the Reds.

## ALL UP

With the Ohio State League After Seven Years of Vicissitudes—Several Players Sold.

The Ohio State League has passed into history. Game to the last, it finally had to haul down its colors because of support of the fans along the circuit. Perhaps at some future date it may be revived but the possibilities are that Mayville will not be one of the elect. Organized ball in this city is no more.

The Mayville players will all leave within the next few days. French leaves today for Columbus in the American Association. McGrawnor goes to Louisville in the same league. Skinner has secured a berth in the Kitty League. Kohlbecker will go to Milwaukee and will make good wherever he goes for he is a hard worker and an excellent catcher. The other players have not secured berths but they will leave as soon as possible. An effort is being made to bring the strong Weldman team from Newport here Sunday to play before the team leaves but it is not known for sure whether they will come or not.

## BIRTHS

Rhodes  
Born to Mr. and Mrs. Elmer Rhodes of the county a fine son Monday.

Gottlieb  
Born to Mr. and Mrs. Daniel Gottlieb of East Fourth street a fine son, William, Thursday afternoon at 1:30 o'clock. Mother and son are doing well.

## SO SAY WE ALL OF US

Yesterday's Commercial Tribune says: "While fishing for a new infelder, why not give Emmer a chance to show his ability? The practice this lad has shown every indication of having all the requirements of a good infelder, and while the management knows two of the present players will not be retained for 1917, why not give this youngster at least a chance, and perhaps he may fill the bill and prevent a waste of money in buying some outsider."

## KINDLING

Any one desiring a load of good dry kindling can have same by calling at the Ledger Office. It is FREE.

# SATISFY!

## —what does that mean?

It means that NEW quality, in a cigarette, that does for your smoking exactly what a drink of cold water does for your thirst!

To satisfy, a cigarette must do far more than just "please" you—it must let you know you've been smoking.

That's what Chesterfields do—they satisfy! And yet they're MILD!

For the first time in the history of cigarettes, here's a cigarette that satisfies and yet is mild! Chesterfields!

Other cigarettes may be mild, but they don't satisfy.

BUT, Chesterfields satisfy—yet they're mild!

This is new enjoyment for a cigarette to give. It is something that no cigarette, except Chesterfields, can give you—regardless of price.

Why?

Because no cigarette maker can copy the Chesterfield blend!

Try Chesterfields—today!

Liggett & Myers Tobacco Co.

#### APPROACHING BANKRUPTCY OF BELLIGERENTS IS FORCING CONSIDERATION OF PEACE

As the war progresses the expenditures of the nations involved in it directly, as increase of the belligerents, and indirectly, as in the instance of the neutral Powers, increase.

Some of the neutrals—say the United States, Holland and Sweden—are increasing their financial resources, adding to their financial reserves through the needs of the war-crazed belligerents, even while the Powers classed as belligerents Japan is the only one which has improved its financial condition through its dealings with its allies and the rest of the world.

The \$70,000,000 which each day of war is now costing the allies, and the \$30,000,000 which represents the probable cost to the Central Powers, means that every month of war now adds \$3,000,000,000 to the burdens of the taxpayers of Europe and Asia. This takes from the belligerent nations and people of these continents hundreds of millions of dollars of their cash or readily convertible resources and transfers their accumulated wealth to a large degree to the neutral nations, and if they issue new securities, to be handed to other nations in payment of balances of trade, these but add to the burdens and difficulties of the future.

The more serious view of the war situation now taken by the United States financial representatives of the allies is significant of the approach to the close of this uncalculated and regrettable war.

Two years of war has shaken the credit and impaired the resources of the strongest financial nations in Europe, and even the most optimistic

of agents and those gathering the largest profit from war loans, war sales and war contracts no longer can view without dread and alarm the rapid reduction of European assets, the revolutionary condition of European finance.

Bonds and notes and other paper evidences of debt of European belligerent countries have their limitations of safety and security in values, and \$70,000,000, and \$30,000,000 issues each day now act as a vast impairment of values of all securities already issued, and as a frightful warning of approaching inability of even the richest nations to meet their obligations.

Three billion dollars a month now means nearly \$20,000,000,000 more debt for the belligerents by January 1, 1917. To pay such an amount means centuries of tax burdens to the people, and it means almost confiscation of incomes in every country in Europe to meet even annual charges upon the debts.

In London, in Paris, in Vienna, in Rome, in Petrograd, in Berlin and in New York the impossibility of financing this war much longer is forcing consideration of peace. — Cincinnati Enquirer.

#### AMERICA IS LAND OF WOODLAND WATERFALLS

What of sylvan beauty rivals the waterfall of the woods? It is Nature's artistry in the highest. A million waterfalls grace this land, yet the charm of a single cascade defies the commonplace. The woodland waterfall with its shady glen is the restful retreat our dreams ever stage for our vacations. They babble their song of the open, by dozens and scores, to the automobile tourist.

To rouse the motorist to this beauty of nature within a week's tour from his home is the purpose of National Touring Week, the automobile vacation movement that has spread across the country from one coast to the other. During the week of August 6, 500,000 motor cars will tour the beauty spots and points of interest of the nation.

"See America first by seeing your own state first," is the golden text emblazoned in gigantic letters for National Touring Week. Nature has been prodigal with her beauties. The motorist who thinks he must go thousands of miles to the far-off country to find scenic beauty is harboring a hallucination. Get off the beaten trail with your automobile within your own state, and you will find a thousand wonders to delight the eye. Plan to spend your vacation in your motor car amidst the charms of your own home country.

This is the sermon, the inspiration, of National Touring Week. The idea has already caught the man at the wheel. Whoever thinks of automobiles is planning a vacation tour in a motor car. The momentum already gained by the movement will carry far beyond the official auto touring period, but all who have August vacations in prospect are fixing them to begin August 6th if possible.

To have a motor car and not use it for vacation pleasures is to trifle with the success of your outing.

#### WHEN MARK TWAIN WAS A COUNTRY EDITOR

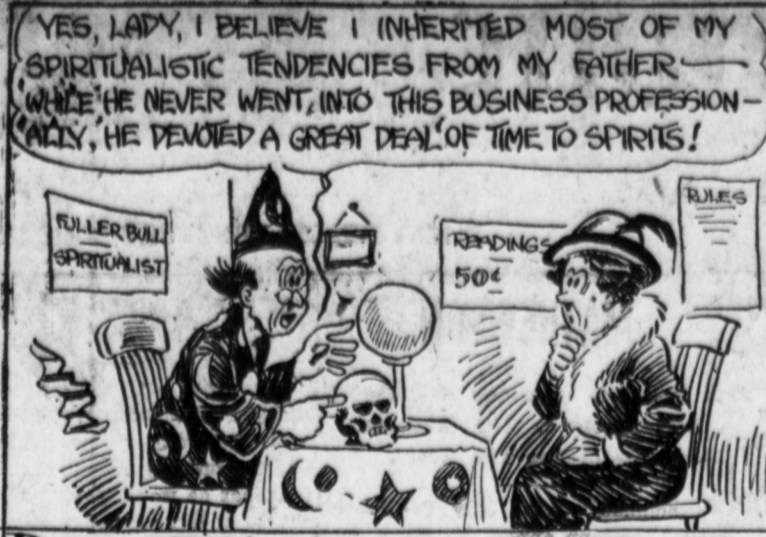

When Mark Twain, in his early days, was editor of a Missouri paper, a superstitious subscriber wrote to him, saying that he had found a spider in his paper, and asking him whether that was a sign of good or bad.

The humorist printed the following answer:

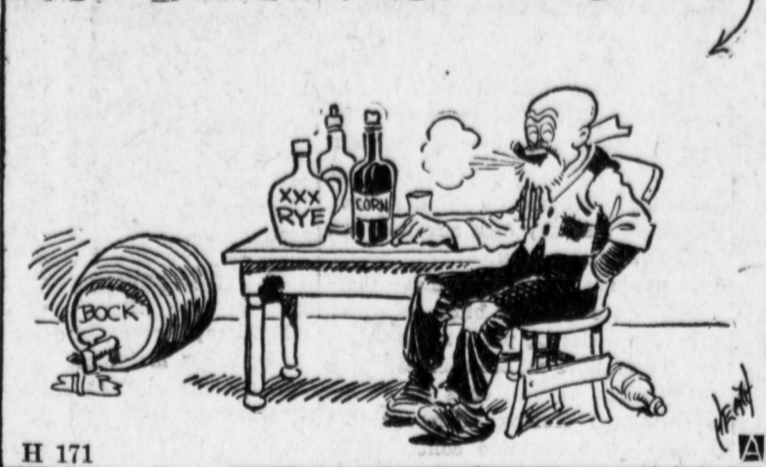

"Old Subscriber: Finding a spider in your paper was neither good luck nor bad for you. The spider was merely looking over our paper to see which merchant is not advertising, so that he can go to that store, spin his web across the door, and lead a life of undisturbed peace ever afterward."

Here's to the women of our community, than whom there are none sweeter or more lovely in this wide, wide world!

Misery loves company, but that is no reason why a man should be a recluse.

BUT THIS IS HOW HE DID IT

H 171

#### THE FLAG

(By Arthur Macy.)

There is a fine awakening of patriotism sweeping over this country. Not the kind of patriotism that seeks war, but rather the kind that would honorably prevent war. Not the kind of patriotism that finds its expression in insolence toward other nations and other flags, but a fine-fibered world-patriotism that steels ultimate justice for all men and all nations. Every true citizen is rallying to protect the ideals of right and freedom that were conceived by the founders of our nation almost a century and a half ago. Here comes the Flag! Let us follow it—in peace, God grant, but, if need be, in war.

Here comes The Flag.

Hail it!  
Who dares to drag  
Or trail it!  
Give it hurrahs—  
Three for the bars,  
Three for the stars.  
Uncover your head to it!  
The soldiers who tread to it  
Shout at the sight of it,  
The justice and right of it,  
The unsullied white of it,  
And tyranny's dread of it!  
Here comes The Flag!

Cheer it!

Valley and crag

Shall hear it.

Fathers shall bless it,

Children caress it.

All shall maintain it,

No one shall stain it.

Cheers for the sailors that fought on the wave for it.

Cheers for the soldiers that always were brave for it.

Tears for the men who went down to the grave for it—

Here comes THE Flag!

#### WATER MASSAGE LATEST

(Chambers' Journal)

One of the latest and most ingenious appliances for the rapid restoration of wounded soldiers is the "whirling" or "whirlpool" bath. In reality this is a form of massage by water preparatory to manual massage. The bath is prepared in two forms, one for the legs and the other for the arms. The vessels are fitted with taps controlling the admission of hot and cold water, as well as an array of nozzles for the distribution of the water. The bath is filled with water at about 86 degrees Fahrenheit and the limb is immersed for a time so as to accustom the patient to this temperature. The taps are then turned on and the setting of the nozzles is so arranged that the water is induced to race round and round the injured limb, the water meantime being gradually increased in temperature. The whirling action is somewhat remarkable in its effect, for whereas the skin could scarcely tolerate the water when still, it is readily able to bear far higher temperatures when the water is whirling. The skin assumes a healthy natural glow, testifying to the reaction which is taking place. The treatment lasts for about 20 minutes and immediately upon withdrawal of the limb manual massage is practiced. One result of the water treatment is that the patient is able to stand the manual massage without the slightest pain, although possibly before the immersion in the bath he could not bear the injury to be touched. When the wound is above the thigh, instead of a bath being used the patient is subjected to treatment from a hose, which is equally effective. The cures which have been wrought by water massage have proved remark-

able; it has triumphed when all other treatment has failed. It has been introduced into this country as an experiment; but doubtless the achievements recorded in France, where it is being used upon an extensive scale, will be repeated, when its more widespread application may be accepted as certain. In Paris, where the Grand Palais has been converted into a huge hospital, some 2,500 wounded soldiers, the greater proportion of whom have been discharged from other establishments as incurable, are constantly under treatment.

#### MANY BIRTHS

That the world is growing larger is shown by the fact that during the first four months of 1916, there were almost twice as many births as there were deaths in Kentucky. The number of deaths was 10,903 while the number of births was 20,013 according to a bulletin recently issued by the State Board of Health.

Boys will be boys, but some are too devilishly boyish to run at large.

#### IT'S SURPRISING

That So Many Maysville People Fail To Recognize Kidney Weakness.

Are you a bad back victim? Suffer twinges; headaches, dizzy spells?

Go to bed tired—get up tired? It's surprising how few suspect the kidneys.

It's surprising how few know what to do.

Kidney trouble needs kidney treatment.

Doan's Kidney Pills are for the kidneys only.

Have convinced Maysville people of their merit.

Here's a Maysville case; Maysville testimony.

Kidney sufferers hereabouts should read it.

Mrs. John Barnes, Maysville, says: "I was subject to severe spells of backache and other symptoms of kidney trouble. They came on every three or six months and at times I was confined to bed and almost helpless. Doan's Kidney Pills gave me quick benefit. When I have had slight return attacks of backache, Doan's Kidney Pills have never failed to quickly check the trouble."

OVER SEVEN YEARS LATER, Mrs. Barnes said: "The statement I gave before praising Doan's Kidney Pills still holds good."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Barnes has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

—our aim will be to continue to publish a paper that will be at only merit, your confidence and good will, but one that will aid in promoting the welfare of our home and civic life. It is useless to say more.

We have here, four well known publications, each of which is known to you as being absolutely reliable, nothing cheap, nothing trashy. Their style of expression is clean and their subject matter is wholesome. It is undoubtedly the season's best offer. We therefore have no hesitancy in urging our readers to subscribe.

**DON'T MISS THIS OFFER—Send Your Order Today to The Daily Public Ledger, Maysville, Ky.**

## Belle of Maysville

The most wonderful whisky that ever drove the skeleton from a feast or painted landscapes in the brain of man. It is the mingled souls of wheat and corn. In it you will find the sunshine and the shadow that chased each other over the billowy fields; the breath of June; the carol of the lark; the dews of night; the wealth of summer; and Autumn's rich content—all golden with imprisoned light.

Drink it, and you will hear the voices of men and maidens singing the "Harvest Home" mingled with the laughter of children. Drink it, and you will feel within your blood the star-lit dawns, the dreamy, tawny dusks of many perfect days. For many years this liquid joy has been confined within the happy staves of oak, longing to touch the lips of man.

Yours for, \$3.00, \$4.00 and \$6.00 per gallon. Sold only by

Dry Cleaning Work Called For and Delivered

### BUTTON FACTORY DEAL CLOSED

As announced some days ago, the Dover Pearl Button Company has disposed of its plant there to an Eastern concern. For good reasons the name of the purchasers was not made public until the deal was closed and the papers "signed, sealed and delivered," though the concern has been operated for the past month by the new proprietors. The new owner is the New Jersey Pearl Button Works, of Newark, N. J., a corporation rated in the millions by Bradstreet, and Dun. It operates one of the largest of the few finishing plants in the United States, converting the "blanks," as cut from the shells at various factories throughout the land, into finished buttons ready for the trade.

Lots of people are on the outs because of their fondness for rubbing it in.

### END OF MEXICAN TROUBLES NEAR

Settlement Believed Likely As Result of Washington Conference—Talk of Commission Ambassador Fletcher Will Not Head the American Membership.

Washington, July 19—Preliminary negotiations between Acting Secretary Polk and Elisei Arrendondo, Mexican ambassador designate, for peaceful settlement of border difficulties, progressed so well today that a formal announcement "very soon" as to the course to be followed was officially predicted.

The conferees met today. Later Mr. Arrendondo telegraphed a report to his government, and Mr. Polk prepared a similar report for Secretary Lansing, now on his vacation, and probably will talk over the situation with President Wilson tomorrow. Mr. Lansing is fully advised of every step in the preliminary negotiations.

Henry P. Fletcher, ambassador designate to Mexico, was present at both conferences, interpreting whenever it was necessary to insure a clear understanding. It is understood the discussion dealt particularly with the powers to be conferred upon a joint commission should that plan of settlement be followed. So far no definite agreement on the course to be pursued has been reached, but today's developments indicated that only final word from General Carranza and President Wilson was lacking.

**Fletcher Not Commissioner**  
It was stated officially that the American commissioner had not been selected. Officials said also that Mr. Fletcher would not head the American membership, as had been reported, because it might impair his diplomatic usefulness.

It is understood Mr. Fletcher will go to his post in Mexico City soon after Secretary Lansing returns from his vacation, August 1, provided the favorable turn of events beyond the border continues. At the same time Mr. Arrendondo will be formally received by President Wilson as ambassador from the Republic of Mexico and full diplomatic relations be restored.

State Department officials said today they had no information as to when General Pershing's troops would be withdrawn from Mexico, indicating that this was a military question entirely in the hands of the War Department. There have been intimations that one of the subjects discussed by Mr. Polk and Mr. Arrendondo was whether the question of withdrawing the troops should be submitted to the joint commissioners for consideration. Since the Washington government has made it plain on every occasion that the troops would retire whenever Carranza troops could insure security of the border, it appears probable that Mr. Polk thought it unnecessary for the commission to go into that subject and so informed Mr. Arrendondo.

#### Gonzales to Hunt Bandits

A dispatch from General Pershing today saying that General Gonzales had conferred with him as to the seizure of the Hearst ranch in Chihuahua and then had proceeded to investigate the case was viewed here as further evidence of the more conciliatory attitude of all Carranza officials. General Pershing had called attention to this case previously, saying that the general opinion of those Mexicans with whom he came in contact was that a peaceful adjustment of all difficulties would be found.

The War Department announced a further relaxation of the unofficial embargo imposed at the border when the Mexican emergency became acute. Coal, coke and gasoline for industrial purposes and household goods now will be permitted to pass into Mexico, the announcement said, in reasonable quantities. Food and clothing have been going in for several weeks.

### FIGURES GIVEN

By Vanderlip on Trade Balance Not Far From Being Correct—Banker's Bureau Runs Close Race With Uncle Sam's—Holand Spies Significance in Official Report Just Issued.

New York, July 19—Frank A. Vanderlip, President of the National City Bank, on the first of July authorized a statement that for the fiscal year which ended June 30 there would be a favorable trade balance for the United States of about \$2,200,000,000, and that this would be about twice as great as the trade balance for the fiscal year of 1915.

President Vanderlip was not far out of the way in his statement. His own statistical bureau matches in accuracy now the one maintained at Washington by the United States Government. The Washington figures, however, have official authority and are therefore accepted as accurate. How near these official figures came to the estimate of Mr. Vanderlip, is shown by the report made by the department a day or two ago that our total foreign trade was \$8,500,000,000, and of that total exports represented \$4,345,000,000 and imports \$2,155,000,000.

The aggregate trade balance in favor of the United States for the fiscal year which has just ended was \$2,250,000,000, or about \$50,000,000 more than Mr. Vanderlip's estimate. Probably never before has a corporate statistical bureau so nearly matched in its figures the reports made by the official statistical department at Washington.

#### Contain Significant Details

The official figures just received contain some details which are very significant. The figures point impressively to those other figures just published which tell of imports of \$600,000,000 in gold since January 1, 1915, and of about \$170,000,000 in gold between January 1 and July 1 of the present year.

Not all of the exports reflect war orders, but many of them do tell the story of our city early unpreparedness to meet the demands made by the belligerent nations upon us for munitions of war. The enormous aggregate of steel and iron exports for the fiscal year was \$618,000,000. Not all this, however, represents orders for munition of war.

We are exporting a great deal of iron and steel commodities to other nations than those now engaged in war, and the order recently placed by Russia in the United States for 450,000 tons of steel rails will have no effect upon the exports of this year, but will be recorded in the exports of the calendar year six months of which are in 1917.

Orders came in late in 1914 and early in 1915 with a rush and with almost overwhelming magnitude for explosives, but it was necessary for the United States to manufacture these war-dealing munitions. We could only manufacture and sell in 1915 explosives of the money value of \$41,000,000 but a few months later our industries were able to catch up with the great orders, so that in the fiscal year just ended they exported explosives of the money value of \$473,000,000. That is an enormous increase within two years, for in 1914 the explosives we exported were of the money value of only \$6,000,000.

#### Less Raw Cotton Exported

The effect of the war is clearly demonstrated in the money value of our raw cotton exports. It was only \$376,000,000. Some years ago James Stillman is reported to have said that our exports of raw cotton of that year would be found, in his opinion, to be about equal to our favorable trade balance, \$500,000,000. The event proved the truth of that statement. There were two curious features contained in this report of the year's trade, for while wheat and flour fell off as compared with the preceding year, the money value of their exports being \$314,000,000, on the other hand meat increased, the money value of this commodity being \$270,000,000.

After all the details that are most significant are those which tell the characteristics of our imports. When the undersea vessel from Germany delivered at Baltimore a considerable cargo of dyestuff, it was noticed in the Wall Street district that this incident seemed not favorably to affect the market, although this may not have been the fact, but there were some authorities who spoke of the incident as something which indicated the magnitude of the dumping upon the United States of foreign manufactured articles after the European war is ended. Nevertheless, imports, which were of the aggregate money value of \$2,180,000,000, are regarded by the best judges as encouraging and not anything to justify apprehension, for the

There is more Catarrh in this section of the country than all other diseases put together, and until the last few years doctors pronounced it to be incurable. For a great many years doctors pronounced it a local disease and prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven Catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials.

Address: F. J. CHENEY & CO., Toledo, O.  
Sold by Druggists, 75c.  
Take Hall's Family Pills for constipation.

American manufacturers need a great deal of raw material. They will be unable to meet the heavy demands which are expected after the close of the war unless they have raw material in abundance, and that, too, at a time it cannot be produced in the United States.

#### Sugar Leading Them All

The largest item in our imports is sugar, there having been imported \$206,000,000 worth of it. That is a raw material and we must always import much the greater part of the raw sugar which we refine. Rubber is a raw material of the utmost importance to American manufacturers. How great that importance it is made evident by the fact that in the fiscal year just ended we imported rubber of the value of \$159,000,000, or not quite twice as much as we imported the year before.

Our manufacturers say that we were fortunate to secure so much rubber as this. The manufacture of shoes and other articles into which hides and skins enter brought into the United States commodities of this kind the money value of which was almost exactly equal to the money value of the rubber, and was \$50,000,000 more than the money value of hides and skins imported the previous year. We need a great deal of wool, and our imports of the past fiscal year were in money value double what they were the previous year.

We paid foreign nations \$145,000,000 for wool, and we paid foreign nations \$122,000,000 for raw silk, an increase of \$40,000,000. We also paid \$108,000,000 for chemicals nearly \$25,000,000 more than we paid in the previous year. These were importations that were a benefit. They enter into our manufacture. Besides, the best judges hope that our imports will increase, for in that way it will be easier for other nations to pay the heavy bill they owe the United States for commodities for this year.

#### ABERDEEN TEACHERS ELECTED

The following teachers were elected by the Aberdeen Board of Education last Friday night:  
Principal—Roland S. Kelsey.  
Assistant Principal—Mrs. Ida K. Spears.  
Intermediate—Miss Maude Campbell.  
Primary—Miss Minna Riedel.

The political pot keeps right on bubbling over and soon there will be nothing left but the nonfees.

Boost the fellow who boosts for good roads. He deserves it and the roads need it.

### WOMAN A PHYSICAL WRECK

Tells in Following Letter How She Was Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Milwaukee, Wis.—"Before taking Lydia E. Pinkham's Vegetable Compound I was a physical wreck. I had been going to a doctor for several years but he did me no good. A friend told me about Lydia E. Pinkham's Vegetable Compound, so I decided to give it a fair trial, and it gave me relief from bearing down pains which had been so bad that I would have to lie down. I also used the Sensitive Wash and it has done me a great deal of good, and I am not troubled with a weakness any more."

Mrs. P. L. BRILL, 1299 Booth Street, Milwaukee, Wis.

The most successful remedy for woman's ills is Lydia E. Pinkham's Vegetable Compound. It has stood the test for forty years, which would be impossible if it did not have genuine merit.

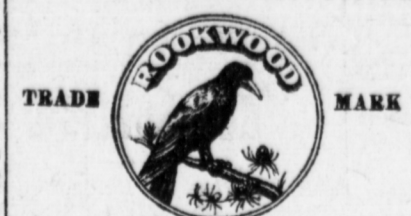

For special advice, free, write to Lydia E. Pinkham Medicine Co. (confidential) Lynn, Mass. Your letter will be opened, read and answered by a woman, and held in strict confidence.

## HERE AND THERE

If you have friends visiting you, or if you are going on a "trip," please drop us a "line" to that effect.

Mr. Watt Worthington of Minerva was a visitor in this city yesterday.

Mr. George W. Hook of Springdale was a visitor in this city Thursday.

Mr. M. J. Hennessey of Augusta was a business visitor in this city yesterday.

Mr. and Mrs. Frank Taylor of Augusta are visiting relatives in this city.

Miss Margaret Sayers of Augusta is visiting relatives and friends in this city.

Miss Eva Hughes of Forest avenue is visiting relatives in Lexington and Millersburg.

Mr. Hal Kennedy of this city is spending a month's vacation with relatives near Sardis.

Mrs. T. Y. Nesbitt and Miss Nellie Dickson are visiting Mrs. Jennie Zeigler of Orangeburg.

Mrs. Annabel Pierce of Cincinnati will arrive today to visit Mr. J. Jas. Wood and family of Forest avenue.

Miss Lucy Peterson of Midway, Ky., is visiting her brother, Mr. C. E. Peterson and wife on East Third street.

Mr. and Mrs. John Muse and daughter, Miss Julia, of East Third street are spending a few days in Cincinnati.

Mr. Henry Helmer has returned to his home on West Third street after a two weeks' vacation at Winona Lake, Ind.

Mr. Stephen Owens of the county passed through this city yesterday en route to Cincinnati to spend a few days.

Dr. and Mrs. W. H. Taulbee and children are in Sharpsburg, Ky., visiting Mrs. Taulbee's mother, Mrs. Eva Knight.

Miss Edith and Master Charles Walter of this city are visiting their grandmother, Mrs. Kate Winter of Augusta.

Miss Anizetta Himes of Huntington, W. Va., arrived yesterday on a two weeks' visit with Mr. and Mrs. Will Cobb of the East End.

Mrs. Ed Hite and son of West Second street left yesterday on a few days' visit with relatives and friends in New Richmond, Ohio.

Miss Corinna Slye of Walnut street left this morning for a week's visit with friends and relatives in Covington, Ky., Cincinnati and Amelia, O.

Mr. R. M. Nelson of Lexington returned home yesterday after a visit here with his parents, Mr. and Mrs. Simon Nelson of East Second street.

Mr. and Mrs. Davie H. Harrison are in Cincinnati visiting a few days and to meet friends, who are there attending the Rotary Meeting for Oklahoma and Kansas City.

Mrs. A. Barnett of Aberdeen, Ohio, has returned home after a pleasant visit to her daughter, Mrs. Ella Woodward, of Newport, Ky., and her grandson, Melvin Woodward of Norwood, Ohio.

Mrs. Lottie Sproemberg and daughter, Miss Louise, returned to their home on Commerce street last night after a five weeks' visit with Mrs. Sproemberg's brother, Mr. Harry Lina of Athol, Kan.

Mr. and Mrs. B. E. McClure, who have been the guests of her father, Wye of Mt. Carmel, Fleming county, left for South Carolina Thursday where Mr. McClure is engaged in the tobacco business.

## DEUTSCHLAND

Still at Pier at Baltimore—British Steamer Hovering in Channel at Three Mile Limit.

Washington, July 20.—The Deutschland was still at her pier tonight. Although no formal objection to the clearance of the German submarine merchantman Deutschland from Baltimore has been interposed in advance by the embassies of the allied nations, there were indications tonight that after the American government has placed itself on record by granting clearance papers, the informal representation made by the British and French ambassadors soon after the arrival of the Deutschland might be supplemented by a formal protest.

**British Steamer Neat Boat**  
Baltimore, Md., July 20.—A British cargo steamer which anchored close to merchant submarine Deutschland gave officials of the Eastern Forwarding Company considerable worry tonight. The British vessel is in a position to observe any movement of the submarine.

The searchlight of the forwarding company's tug Timmins was flashed on the British boat intermittently throughout the night. Captain Zach Cullison, of the Timmins, reported for duty today aboard the tug. He had spent several days around the Virginia capes, presumably getting a line on the movements of foreign warships.

Prepared to leave port at any moment, Captain Paul Goeling, commander of the German submarine put on his uniform today for the first time since he landed here eleven days ago and for several hours this morning studied the charts of the Patuxent River and Chesapeake Bay with Captain Frederick Hinsch, commander of the North German Lloyd liner Neckar. When Captain Goeling went back aboard the undersea liner he took with him a duplicate manifest of the ship's cargo. Another copy was ready to be taken to the customhouse.

Captain Goeling said he would not leave his ship again and indicated an early departure, but said nothing that would give an idea just when the submarine would leave.

It was understood the Deutschland's engine and submerging machinery had been given a final test and were found to be in perfect condition.

## CENTENARY OF TROUSERS

(Los Angeles Times)  
So many events are crowding the calendar for 1916 that a possible centenary celebration has been overlooked, one quite distinctive for the masculine gender. Just one hundred years ago man for the first time wore full-length trousers in public and knee breeches went out of vogue. This revolution in man's attire, however, was not effected without as much opposition as movement in the same direction. The Duke of Wellington is said to have been responsible for introducing trousers to British society and much of his later unpopularity is attributed to this fact.

Before the year 1816 a man appearing on the street in long pants would have created as much sensation as a Los Angeles woman would today who paraded Broadway similarly attired. But, as the poet said, "Use can almost change the face of nature." All men now follow the practice introduced by the conqueror of Waterloo. Only the hard-headed and brawny-limbed Scotch highlanders still stand for the ancient costume of their forebears and refuse to abandon kilts for trousers.

The man who earns his wage invariably finds a wage waiting to be earned.

The Greendale will pass up the river today and the Greenwood down today.

The gauge marks 18.7 this morning. The river is falling slowly but the river men say that it will probably reach low water mark by Monday.

The small ferry Hercules returned to Higginsport yesterday morning after being here for about a month as ferry between this city and Aberdeen.

The contractors at Lock and Dam No. 33 just above the city are preparing to pump out the coffer dam again. The river will be low enough by tomorrow morning to start pumping so they think and if it is that work will begin. They will lose only about a week's time on the work.

### A GIRL'S POCKET

A great deal has been written in both poetry and prose about the relics the boys carry in their pockets, writes the high school reporter, but for some reason they missed the girls. Recently our Investigation Committee held an inquest upon a girl's pockets and found the following:

One scented pocket handkerchief, one vanity case containing powder, mirror and some small change, one powder rag, one crochet hook, one ball cratchet thread and work, one tatting shuttle, one button hook, one nail file, one wire hairpin, one coat button, one stick sewing-gum, a note from her last beau and three senseless, besides numerous unidentified odds and ends of a miscellaneous nature.

## Correspondence

### Springdale

Mr. and Mrs. G. W. Hook were visiting at Epworth Tuesday. They were accompanied by their son, Charles, and secured some fine blackberries in that region.

A horse belonging to Mr. Joseph Mye of Mt. Carmel, Fleming county, became frightened by a freight train here yesterday and broke loose from its hitching-post. It ran up the road a mile and a quarter and was finally stopped by the Misses Elliott. No serious damage resulted.

Master Wardie, the little son of Mr. and Mrs. W. W. Davenport, had a narrow escape Tuesday when he fell from the hayloft in his father's barn a distance of about 12 feet. He was knocked unconscious and did not entirely recover for several hours. Master Wardie must be peculiarly unfortunate as he narrowly escaped death from scalding about three years ago, when two of his older brothers allowed a home-made steam engine (a closed up powder can) to explode, throwing boiling water and steam all over the little fellow. His life hung in the balance for weeks. His friends hope he will have no more accidents.

### K. OF P. MEETING

Regular weekly meeting of Lime stone Chapter No. 36 K. of P. tonight at 7:30 o'clock. All members are requested to be present.

HENRY HELMER, C. C.  
Ben H. Greenlee, Secretary.

### MANY SEE PICTURE

The picture "Fantasma" drew a large crowd to the Pastime last night as it had been here in the play before. The picture was a weird thing some stunts being pulled off in it that mystified every one.

### CARD OF THANKS

We wish to thank the many friends, who were so considerate during the sickness of our departed one, Stanley Conrad, and especially the local order of Redmen, who helped so much.

### THE RELATIVES.
